

Friday 20th March

BUNNY ON THE LOSE!!!

Mysterious bunny has ~~left~~ eggs in school playground! In the early hours of the morning, there were reports of a mysterious creature lurking around North road. ~~At~~ Miss James saw a large object run across the ~~front~~ field opposite school at 2:30 am, Mrs Smith, who lives at the back of school, heard a loud thumping ~~noise~~ noise at about 2:15. but when she looked out of her window ~~at~~ nothing was there, and Mr Pope, who lives opposite school also heard a thumping noise at about 2:20 am. When he looked out of his bedroom window he saw a large shape in the shadows crawling under that gate.

Friday 20th March

Hunt for the Easter bunny!

Early Friday Morning, A creature was thought to
inhabit North Road primary school. At two-fifteen
Mrs Smith reported that she had heard strange thumping
noises. Five minutes later Mr Pope reported he saw a strange
shape crawling ~~was~~ under the school gate. Mrs James
reported ten minutes later that she had seen a big creature
bouncing across her field but said it was smaller than
a horse. Then Mrs Clarke reported a large hole in her
garden. Later that day Mrs Allan found some wicker on the
gate and put it in the bin. When the children were all at school
Mrs Hill was asked all the teachers about the wicker basket
spells eggs but they said no. When they went in they thought
they saw footprints but somebody just spelt a ditch
that people stepped in. After words the children went
into assembly the easter bunny showed himself and
threw easter eggs at people! There were yellow eggs, blue
eggs, pink eggs, green eggs and orange eggs.

20/3/15

Big bouncy bunny bounces back into school!

Dear Editor of *The Focal Point*,

Last night at a school in North Yate a mysterious figure appeared. An Easter bunny has been spotted leaving chocolate eggs around the area. On the 20th of March, Mrs Smith, a woman whose house backs on to the school playground where the eggs were found, heard a loud thumping noise coming from around the playground. She sadly didn't see anything so we are not if it was a bunny but further evidence points to it being true. Mr Pope, a man who runs Pope's skips a small business by the school, also heard loud noises at 2.20 AM and said he saw a shadowy shape crawling under the school gate. Mrs James said at 2.30 AM she saw a dark shape running across her field. "I looked out my window and wondered what it was. It looked smaller than a horse, which you can sometimes see in fields, but it was certainly big and moved quickly, almost as if it was bouncing!"

At 7.15 AM, Mrs Allen the school cleaner unlocked the school gate and found a piece of wicker like the one the basket was made out of. She then noticed the basket but said she lost it. Mrs Williams, the headteacher of the school, says she found the basket but also lost it. Mrs Clarke, a parent, and Lucy Broom, a child at the school, both say they found a hole in their garden which may belong to a rabbit. Now, there is so much evidence pointing to it being a rabbit which is also revealed when a giant Easter bunny appears in the school hall throwing eggs! So where will the rabbit appear next? Is the Easter bunny real? Please contact North road school, where the bunny was first seen, if you see this bunny or find any evidence!
